SEAWAY NOTICE NO. 19 - 2017

Decreased Outflow – Montreal Lake Ontario Section (Cancelled 2017/08/24)

Mariners are advised that the International Lake Ontario St. Lawrence River Board (Board) has decreased the outflow from Lake Ontario from 10,400 cubic metres per second (cms) to 9,910 cms today, August 8th at 00:01.

Mitigation measures implemented as a result of the high flows will remain in effect until conditions warrant their removal. Any change will be communicated via Seaway Notice.
