2007 - NOTICE TO SHIPPING #3

**MAISONNEUVE REGION
MONTREAL/LAKE ONTARIO SECTION**

SELF-SPOTTING OF DOWNBOUND VESSELS AT COTE STE CATHERINE LOCK

A second prototype of the self-spotting system has been installed at the lower end of Cote Ste Catherine lock. The system is activated once the lock personnel confirms the vessel passage at upper limit of approach n° 2. A variable message display board displays the distance between the stem of the vessel and the lower stop symbol. The spotting instructions from the lock personnel are to be respected.

Mariners are invited to submit their comments on the location of the variable display board, the visibility of the information provided or any other comments on the self-spotting system.

You can submit your comments directly to the traffic control center or by fax to the number below:
