2016 – Notice to Shipping N° 17
MAISONNEUVE REGION
MONTREAL / LAKE ONTARIO SECTION

Installation of a Temporary Wharf Along the South Shore Canal

Mariners are advised that due to construction of the new Champlain Bridge, the unloading of concrete segments from a barge will be carried out in the South Shore Canal in the vicinity of the new bridge. To allow for the unloading process, a wharf will be installed and positioned downstream of the Champlain Bridge in the Canal (see below for diagram with position and dimensions).

The installation of the wharf will be done by Ocean Group the week of September 19th, 2016, between commercial navigation. The unloading work will be done later, over four weeks at the rate of two unloadings per week. A tug will remain moored at the wharf during the unloading process.

During the installation period and once the installation is complete, mariners must transit at the slowest safe speed possible in the vicinity of the wharf. Two-way navigation will be permitted in the South Shore Canal; however, no meets will be allowed in the vicinity of the wharf.

We will monitor the situation closely and notify you of any change.

Thank you for your collaboration.
