About the Saint Lawrence Seaway Development Corporation (SLSDC)

The SLSDC is a wholly owned government corporation created by statute to construct, operate and maintain that part of the St. Lawrence Seaway between the Port of Montreal and Lake Erie, within the territorial limits of the United States. Its mission is to serve the U.S. intermodal and international transportation system by improving the operation and maintenance of a safe, reliable, efficient, and environmentally responsible deep-draft waterway, in cooperation with its Canadian counterpart. The SLSDC also encourages the development of trade through the Great Lakes-Seaway System, which contributes to the comprehensive economic and environmental development of the entire Great Lakes region.
