

The Great Lakes - St. Lawrence Seaway System
Le réseau Grands Lacs - Voie maritime du Saint-Laurent

SEAWAY NOTICE NO. 10 – 2018

AIS Navigation Status

Mariners are advised to set their AIS Navigation status to “**0-Underway (Engine)**” when they are transiting the St. Lawrence Seaway to ensure the AIS signal is broadcasted on a regular basis. Vessel speed and positions are used to monitor traffic patterns and to provide a safe & efficient transit.

All other requirements regarding the AIS unit described in the Seaway Handbook remain in effect.
