2015 – NOTICE TO SHIPPING #20

MAISONNEUVE REGION  
MONTREAL / LAKE ONTARIO SECTION

**SHIP AT WHARVES FOR OFFLOADING IN THE SOUTH-SHORE CANAL**

Mariners are advised that due to the construction of the new Champlain Bridge, aggregate will be offloaded from a ship in the South-Shore Canal where the new Champlain Bridge will be located. The m/v BAIE ST-PAUL will be frequently moored at the 3 wharves located in the navigation channel below the current Champlain Bridge **from August 10<sup>th</sup> 2015 until the end of September 2015** for periods ranging from 12 to 30 hours. This will reduce the width of the channel in that area (see picture for position and dimension).

When the ship is offloading cargo, mariners should navigate at slowest safe speed in that area. Two-way navigation will be in effect in the South-Shore Canal, but there will be a no meet zone in the vicinity of the ship and wharves.

We will monitor the situation closely and advise you of any changes.

Maisonneuve Region  
July 30, 2015
