2018 - NOTICE TO SHIPPING #25

MAISONNEUVE REGION
MONTREAL / LAKE ONTARIO SECTION

Port of Valleyfield

The St. Lawrence Seaway Management Corporation has been advised by the Port of Valleyfield and by the Great Lakes Pilotage Authority (GLPA) that the water depth at certain areas of the Port may not support the Seaway maximum permissible draft. We therefore strongly recommend to all Mariners to consult with the Port of Valleyfield Harbour Master in order to confirm the water level and available depth at the Port.

Refer to the Notice to Mariners issued by the Port of Valleyfield:

<https://www.portvalleyfield.com/sites/default/files/documents/PortOfValleyfield-NoticeToMariners.pdf>

A vessel requiring pilotage services should also consult with the GLPA to determine the acceptable draught that the GLPA would support given the vessel's specific transit details and the existing water levels.

Mariners should proceed with caution when departing the main shipping channel in the direction of the waters of the Port of Valleyfield.
