SECURITY AWARENESS WHILE ENTERING / DEPARTING SEAWAY LOCKS

Mariners are requested to be attentive to the non tie-up side of the lock particularly when entering / exiting locks and during mooring operations as lock employees' visibility of the non tie-up side is periodically obstructed by the vessel.

If at any time suspicious or dangerous activity is observed on the non tie-up side of the lock, mariners are requested to immediately advise lock personnel and/or the Operations Center via VHF.

Upon notification the SLSMC will respond and/or contact appropriate authorities.
