UPPER WEST WALL ABOVE LOCK 7 – NEW CHECKERBOARD POSITIONING SIGN

Mariners are advised that a new, illuminated checkerboard sign has been installed on the west wall above lock 7 to clarify vessel positioning where securing may be required due to traffic dispatching. The sign is immediately (100metres) north of the current west wall LA and is a typical diamond shape with a black and yellow checkered pattern (identical to the east wall above lock 7). The new sign is back to back to provide clear position definition from either a north or south approach.

The new sign will replace what was historically known as the “old tin shed” which no longer exists.
