Lock 2 Upper Tie Up Wall

A recent inspection and assessment of the Lock 2 Upper West Tie Up Wall has identified a section of the wall that will require rehabilitation. Mariners are therefore advised that the Lock 2 Upper West Tie wall between bollards 21 & 23 has been taken Out of Service.

Mariners are to avoid landing (impact) at these restricted bollards. Sliding the wall is still permitted. Further this section of the wall is not available for vessel tie up, vehicular or pedestrian access for the remainder of this 2011 navigation year. Fencing and owl lights have been erected on the wall marking the area in question.
