2017 – Pleasure Craft Bulletin #6

MAISONNEUVE REGION

MONTRÉAL / LAKE ONTARIO SECTION

Decreased Outflows – Montreal Lake Ontario Section

Pleasure craft operators are advised that the International Lake Ontario St. Lawrence River Board will reduce the outflow from Lake Ontario to 9,620 cubic metres per second, effective August 26, 2017 at 00:01.

High outflows remain necessary to provide relief to those affected by the high water levels on Lake Ontario, but decreases are necessary to balance the impact to navigation as the Lake Ontario level declines.

This is the last notice to be issued regarding flow decreases.
