## **Editorial Notes**

*The Historical Tables 1959 - 1992 booklet is an addendum to the Annual Traffic Report. The annual report is jointly prepared by The Lawrence Seaway Management Corporation and the Saint Lawrence Seaway Development Corporation.*

*Contents are historical tables only, covering the first 24 years of Seaway activity.*

*The annual "St. Lawrence Seaway Traffic Report", issued each spring, documents prior year activity in considerable detail. The annual report includes the same historical tables found in this document, but will contain only the latest 20 years. The annual report will be the document of interest to most readers.*

*This booklet is divided into four parts:*

*Part I - Historical table summaries of the 1959 - 1992 St. Lawrence Seaway traffic activities by traffic sectors; the Montreal-Lake Ontario Section and the Welland Canal Section.*

*Part II - Historical table summaries of cargo and vessel movements through the St. Lawrence Seaway. These tables represent total Seaway traffic, eliminating duplication of vessel transits and cargo quantities moved through more than one traffic sector.*

*Part III - Historical table summaries of cargo and vessel movements through the Montreal-Lake Ontario Section of the St. Lawrence Seaway.*

*Part IV - Historical table summaries of cargo and vessel movements through the Welland Canal Section of the St. Lawrence Seaway.*

*Transits and gross registered tonnages for non-toll traffic are not included in this report.*

*Users of this report should note that all cargo and transit figures are based on the transit of at least one lock of the section of the Seaway for which statistics are given.*

# **PART I**

St. Lawrence Seaway Toll Traffic

Definitions

and

Traffic Summaries

## **DEFINITIONS**

*In this report cargo quantities are recorded in metric tonnes. If required, short ton equivalences may be calculated by multiplying the metric quantities using the 1.1023 conversion factor. Historical cargo data, published in short tons prior to 1978, have been converted to metric equivalences.*

*For the interpretation of the tabulations contained in this traffic report, the following definitions should be noted:*

- a) **Bulk Cargo**            *The tonnes of bulk cargo assessed at the Bulk rate of tolls as defined in the St. Lawrence Seaway Tariff of Tolls.*
- b) **Cargo Tonnes**        *The tonnes of cargo carried by a vessel on each or any transit.*
- c) **Coastal**                *Means transits to or from the Maritimes and U.S. Atlantic Ports.*
- d) **Commodity**            *The classification of commodities is based on that prescribed by the Canadian Transport Commission and the Interstate Commerce Commission of the United States.*
- e) **Container Cargo**      *The tonnes of containerized cargo assessed at the Containers rate of tolls as defined in the St. Lawrence Seaway Tariff of Tolls.*
- f) **Destination**          *Means the country in which the cargo was unloaded and/or the transit terminated.*
- g) **General Cargo**        *The tonnes of cargo assessed at the General rate of tolls as defined in the St. Lawrence Seaway Tariff of Tolls.*
- h) **Government Aid Cargo**   *The tonnes of cargo assessed at the Government Aid rate of tolls as defined in the St. Lawrence Seaway Tariff of Tolls.*
- i) **Grain Cargo**            *The tonnes of cargo assessed at the Food or Feed Grains rate of tolls as defined in the St. Lawrence Seaway Tariff of Tolls.*
- j) **Gross Registered Tonnage**   *The gross registered tonnage of a vessel according to the country of registry.*
- k) **Inland**                *Means transits to and from inland ports connected by water routes made navigable by one or more lock structures.*
- l) **Mixed Cargo**            *Indicates that a vessel carried any combination of Grains, Government Aid, Containers, General or Bulk cargoes.*

## **DEFINITIONS**

- m) **Origin**                      *Means the country in which the cargo was loaded and/or the transit originated.*
- n) **Overseas**                      *Means transits to or from Foreign Ports beyond the Coast of Canada and the United States.*
- o) **Package Freight**              *In the historical tables, designates cargo consisting of miscellaneous packages generally unidentifiable as to commodity and carried only on vessels licensed by the respective Authorities in Canada and the United States. This commodity classification is no longer applicable.*
- p) **Transit**                          *A partial or complete upbound or downbound passage of a vessel through one or more locks of a Seaway canal.*
- q) **Tug and Barge Combinations**      *The assessment of tolls requires tugs and barges in common transit to be considered as one unit. In this report the number of transits shown under this category represents the number of combined passages plus the number of individual tugs transiting the Seaway.*

*It should be noted, in any analysis, that there is not necessarily a relationship between a specific "Commodity" classification and a "Tariff of Tolls" classification. Due to the method of packaging, handling, special refinements or other provisions, an otherwise identical commodity item may be classified in any of the Bulk, Grains, Government Aid, Containers or General tariff of tolls categories.*

**TOLL REVENUE  
1959 - 1992**

- (1) Tolls are collected in Canadian and U.S. dollars as shown below. The combined total does not distinguish between currencies. Revenue data is sourced from calendar year traffic reports and will vary from annual financial reports.
- (2) Montreal-Lake Ontario revenue split, Canada 71%, U.S. 29%, 1959 through 1966.
- (3) Welland Canal tolls suspended July 18, 1962.
- (4) Increasing schedule of lockage charges imposed on the Welland Canal, April 1, 1967. Montreal-Lake Ontario revenue split, Canada 73%, U.S. 27%, 1967 through 1977.
- (5) System-wide 3-year phased toll increase. Welland Lockage fees replaced with commodity and GRT tolls. Montreal-Lake Ontario revenue split revised to: Canada 71%, U.S. 29%.
- (6) System-wide 2-year phased toll increase. Welland lockage fees reinstated with commodity and GRT tolls.
- (7) Montreal-Lake Ontario revenue split revised to: Canada 73%, U.S. 27%
- (8) Increased schedule of lockage fees and toll charges imposed on the Welland Canal, April 1, 1986, 1987 and 1988.
- (9) System-wide 2-year phased toll increase. Montreal-Lake Ontario revenue split revised to: Canada 75%, U.S. 25%.
- (10) System-wide 3-year phased toll increase.
