2010 – NOTICE TO SHIPPING #8

MAISONNEUVE REGION
MONTREAL/LAKE ONTARIO SECTION

Low Water Levels above Cote St. Catherine Lock

Further to the Seaway Notice no. 9, and Maisonneuve Region Notices to Shipping no. 6 and 7 of 2010, Mariners are advised that due to low water supplies and consequently the low and declining river outflows, low water levels exist in the area immediately above Cote Ste Catherine Lock to the western end of Cote Ste Catherine wharf. Given the approximately 15 cm normal variation in the water levels in this vicinity, vessels loaded to a draft of 78 dm or greater are to transit this area at the slowest safe speed. Conditions will continue to be monitored closely and mariners will be advised accordingly.
