

SEAWAY NOTICE NO. 10 – 2021

SPEED MANAGEMENT CHANGES

A complete review of the speed management system has been conducted internally. Although the speed limits listed in the Seaway Handbook ((Section 28) Schedule II – Table of Speeds) will remain unchanged, tighter tolerances will be applied for the majority of locations throughout the Seaway. This is being done to ensure that the speed limits listed in the Seaway Handbook are being followed more closely.
