Low Water Levels below St. Lambert Lock (Cancelled 2021/07/16)

Mariners are advised that due to low water supplies and consequently the low and declining river outflows, water levels below St. Lambert Lock and particularly below Jacques-Cartier Bridge are near alert levels. Vessels loaded to a draft of 78.0dm or greater are to transit the 100 meters immediately below (north) of Jacques-Cartier Bridge (see schematic below) at the slowest safe speed. Conditions will continue to be monitored closely and mariners will be advised of any changes accordingly.
