SEAWAY NOTICE NO. 20 – 2021

MANDATORY VACCINATION REQUIRED TO ACCESS SLSMC STRUCTURES - REVISED

The St. Lawrence Seaway Management Corporation is adopting a mandatory vaccination policy as mandated for the federally regulated marine transportation sector in alignment with Transport Canada guidelines.

As part of that policy, all agencies, administrations, vendors, suppliers, visitors and contractors are expected to be fully vaccinated to have access to our infrastructures, sites and premises starting November 15. To be considered fully vaccinated, an individual must have received the full series of an accepted COVID-19 vaccine or a full series of a combination of accepted vaccines at least 14 full days prior to the visit.

You will be asked to attest to being fully vaccinated prior to entry onto our infrastructures, sites and premises. All current posted sanitary measures like screening, physical distancing and masking remain in effect at all times.

Visitors governed by the Canada Shipping Act and wishing to access the lock's infrastructures are to follow applicable requirements and timelines as set out by their employers, agencies and administrations.

By following our vaccination policy, you will be doing your part to preserve the health and safety of the marine industry. If you are not vaccinated, we encourage you to do so as soon as possible.

Please get in touch with your SLSMC contact person as soon as possible if you cannot meet the above requirements.
