

## SEAWAY NOTICE NO. 23 – 2022

### **MAXIMUM PERMISSIBLE DRAFT – MONTREAL TO LAKE ONTARIO AND WELLAND CANAL**

Mariners are advised that current and forecasted water levels on Lake St. Louis allow the cancellation of the draft restriction in the Montreal-Lake Ontario section outlined in Seaway Notice No. 21 of 2022. Consequently, **effective immediately, the maximum permissible draft in the Montreal-Lake Ontario section will be 80.8 dm (26'-6'') for all ships.**

The speed restrictions described in the Montreal-Lake Ontario Notices to Shipping no. 11, 18 and 21 remain in effect.

**In the Welland Canal, maximum permissible draft will remain at 80.8 dm (26'-6'') for all ships.**

Ships equipped with an approved and operational draft information system will still be permitted to transit at a draft of up to 7cm (3'') above the maximum allowable draft.
