SEAWAY NOTICE NO. 24 – 2022

**AUTOMATIC IDENTIFICATION SYSTEM (AIS) REQUIREMENTS - Revised**

Mariners are advised that as of December 15<sup>th</sup> 2022, the Canadian Coast Guard's maritime Differential Global Positioning System (DGPS) radio beacon services will be shut down. As such, Mariners are asked to switch their GPS to auto-mode to maintain the augmented GPS signal throughout a ship's entire Seaway transit. If auto-mode is not available, Mariners are asked to manually switch over to **Satellite Based Augmentation System (SBAS)** for their entire Seaway transit.
