2024 - SEAWAY NOTICE # 11

New DIS High Resolution Charts for the Welland Canal

Following dredging work in areas below Lock 3 and Lock 7 in the Welland Canal, the areas have been resounded and new high resolution charts are now available. As a result, ships equipped with a Draft Information System (DIS) must download three new high resolution charts onto their DIS.

| New High Resolution Chart #: | Replacing Previous Chart #: |
|-------------------------------------|------------------------------------|
| 43127920_06.000 | 43127920_05.000 |
| 43147920_06.000 | 43147920_05.000 |
| 43167920_06.000 | 43167920_05.000 |

Please contact your DIS service provider to download the charts onto your DIS.

Once the new charts have been downloaded, please complete the attached form and return to slsmcmarineservices@seaway.ca to confirm that the old charts have been replaced.

For your reference, a list of all required high resolution DIS charts is also available on our [website](#).
