2025 - SEAWAY NOTICE #7

Wind Assisted Propulsion System

Mariners are advised that wind assisted propulsion systems are not to be used in Seaway waters, MLO Section of the Seaway between CIP2 and Cape Vincent and the Welland Canal between CIP15 (Port Weller) and CIP16 (Port Colborne).

Ships planning to retrofit or install a wind assisted propulsion system should contact the SLSMC and submit drawings for review.

Thank you for your collaboration.
