2025 - SEAWAY NOTICE #11

Parking Directives on Canadian Seaway Property

Please be advised of the new parking directives for motor vehicle operations on Canadian Seaway property:

- All vehicles parking on Seaway facilities should be parked to allow for exiting in the forward direction (whether pull through or backing in). Plan ahead to avoid areas with obstacles and have an exit strategy.
- New parking signs at all facilities will be installed shortly and angled parking configurations will be revised this summer to facilitate safer parking and traffic patterns.

Thank you for your cooperation in this matter.
