

2026 - SEAWAY NOTICE #7

New Seaway Speed Restrictions and Limitations Summary Web Page

A new web page is now available that consolidates Seaway speed restrictions in a single location.

The page provides an at-a-glance overview of current speed restrictions, meet restrictions, and identified high spots, allowing navigators and stakeholders to quickly identify applicable limitations without having to search through individual Notices to Shipping.

This page is intended as a convenience tool and provides an up to date summary of the information published in the Notices to Shipping.

To access, visit the [Speed Limits and Restrictions](#) section under the “Navigating the Seaway” menu on the Seaway website.
